

JUN 17 2016

CITY OF SPRINGFIELD  
CITY RECORDER

Honorable Mayor Lundberg and/or Distinguished Council Member,

June 6, 2016

We, the undersigned, represent the business and property owners on Main Street and South A in our city of Springfield, Oregon. As our elected official, we want to make sure you hear our position loud and clear regarding the proposed ongoing study of the Main-McVay Hwy Project. A number of us have attended city council meetings and LTD board meetings and offered testimony in opposition to three options being advanced for further study (figures 19, 22 & 28). We share your concern regarding safety on Main Street, but we also know there are other ways to mitigate that concern within the existing right of way, and without adversely impacting the business activities, the properties and the economic development on this corridor. We urge you to engage the entire business and property owners' community, and to listen to their feedback prior to advancing any option that may run contrary to their interests. Any project that gets implemented without the consent of the governed will ultimately disenfranchise an integral segment of our community members.
